

Advances in Hepato Biliary Pancreatic Endoscopy

24-26th February 2012, Hyderabad, India

Organised by

Asian Institute of Gastroenterology
Hyderabad

VENUE

Hyderabad International Convention Centre (HICC)
HITEC City, Madhapur, Hyderabad

24th February - PG Clinics in ERCP
25 - 26th February - Live Endoscopy Workshop

18 credit hours by Medical Council

Endorsed by

European Society of
Gastrointestinal Endoscopy

American Society for
Gastrointestinal Endoscopy

World Endoscopy
Organization

Dear Colleagues,

Advances in Hepato Biliary Pancreatic imaging has revolutionized the diagnosis and therapy of many HPB diseases. Endoscopic techniques in this area are rapidly evolving and becoming the standard of care. This workshop aims at demonstrating many of these cutting edge technologies and techniques by international experts.

This three day workshop starts with a daylong video based Post Graduate Course to introduce ERCP & EUS to the beginners. Various videos would be shown by the faculty, an expert panel would discuss the individual techniques and conclude with an evidence based approach in each case. The next two days will have a demonstration of variety of endoscopy procedures done by experts, transmitted live from the Asian Institute of Gastroenterology to Hyderabad International Convention Center (HICC). Transmission would be by the new High Definition technology for the first time. There will be ample time for audience interaction and emphasis will be not only be on techniques & technologies but also indications and contra indications for each procedure. Several new techniques like cholangio-pancreaticoscopy, endoscopic radiofrequency ablation of biliary and pancreatic tumors, newer biliary and pancreatic stents will be demonstrated. In addition, endoscopic techniques for removal of difficult biliary and pancreatic stones, selective cannulation of bile duct and pancreatic duct and EUS procedures will also be shown. Physician endoscopists will be introduced to the technique of bed side diagnostic laparoscopy using ultra thin needle laparoscope. Another unique feature of this year's workshop will be Hands on industry session. Delegates can try various accessories hands on at the industry sponsored break out facilities on all three days. There will be a special dinner symposium where the world leaders would share their thoughts on "How they became expert endoscopists"

This conference and workshop would benefit Gastroenterologists, Surgeons, PG students and non specialists with interest in endoscopy and hepato biliary pancreatic diseases. Looking forward to seeing you in Hyderabad which continues to grow as a world class city.

Highlights

Post Graduate Clinics in ERCP

Bedside Needle Laparoscopy

Live demonstration of Endoscopic Procedures

Endoscopic Radio Frequency Ablation for Biliary Malignancy

Per oral Cholangioscopy

Newer Pancreatic and Biliary Stents

Tricks & Techniques to remove Biliary & Pancreatic Stones

Hands on exposure to Newer Endoscopic Accessories

Expert Talks

Dinner Symposium on "Why I became an Endoscopist"

Scientific Program

24th February 2012

Post Graduate Clinics

Video Case Based Discussion

(Technologies/Expert opinion/ Audience response/ Evidence based Medicine)

10 00	Industry sponsored hands on Workshop
10 45	Welcome address
11 00	Difficult Cannulation
11 45	Large CBD Stones
12 30	Indeterminate Biliary Strictures
13 15	Lunch & Industry sponsored hands on Workshop
14 00	Pancreatic Necrosis
14 45	Pancreatic Calculi/Strictures
15 30	Hilar Obstruction
16 15	Post operative Biliary complications
17 00	ERCP complications
18 00	Industry sponsored hands on Workshop
20 00	Dinner at HICC

Scientific Program

25th February 2012

Live Endoscopy Workshop

Live demonstrations from Asian Institute of Gastroenterology

- | | |
|-------|---|
| 08 00 | Industry sponsored hands on Workshop |
| 09 00 | Live demonstrations I
Selective cannulation, Sphincterotomy and Sphincteroplasty for CBD Stones |
| 10 40 | Lecture: Biliary and Pancreatic Stents - Physics & Chemistry |
| 11 00 | Lecture: Large Balloon Sphincteroplasty - An alternative to Biliary Sphincterotomy |
| 11 20 | Live demonstrations II
Precut, ESWL for Large CBD Stones, Mechanical Lithotripsy |
| 12 40 | Lecture: Post op Biliary complications - How to tackle? |
| 13 00 | Lecture: Endoscopic Pancreatic Necrosectomy - When and how |
| 13 20 | Lunch & Industry sponsored hands on Workshop |
| 14 00 | Live demonstrations III
Pancreatic Calculi and Strictures, Newer Pancreatic and Biliary Plastic Stents, Bedside Laparoscopy |
| 15 40 | Lecture: Chronic Pancreatitis - Endoscopy and Surgery - The debate continues |
| 16 00 | Lecture: Hilar cholangiocarcinoma - Current perspectives in therapy |
| 16 20 | Live demonstrations IV
Per-oral Cholangioscopy, Spyscopy, Direct Cholangio Pancreatotomy
Tissue acquisition techniques, Laser Lithotripsy of Biliary/Pancreatic Stones |
| 19 00 | Dinner Symposium
Why I became an Endoscopist |
| 20 00 | Grand Dinner at HICC Pool Side Lawns |

Scientific Program

26th February 2012

Live Endoscopy Workshop

Live demonstrations from Asian Institute of Gastroenterology

- 07 00 Industry sponsored hands on Workshop
- 08 00 **Live demonstrations V**
EUS, Forward viewing EUS
Intraductal Ultrasound, Benign Biliary Strictures
- 10 40 Lecture: EUS in HBP Disease - Present and Future
- 11 00 **Live demonstrations VI**
Post operative Biliary complications, Newer stents, Rendezvous procedure
- 12 40 Lecture: Per oral Cholangioscopy - What is new?
- 13 00 Lunch & Industry sponsored hands on Workshop
- 14 00 **Live demonstrations VII**
Newer SEMS for Pancreatic strictures and Hilar Malignancy,
RFA for Cholangiocarcinoma, Pancreatic Pseudocyst & Necrosectomy
